

## Quarterly Connection Q3 2020

We hope you, your family and colleagues are doing well as the challenges of this pandemic continue. It looks like trade shows for the fall have been cancelled and office visits are being kept to a minimum. We launched the Quarterly Connection in June to keep you up to date on our recent projects.

As you start planning for next year, we have exciting organic ingredients to show you. If we spike your interest, please contact your account manager who is available to provide product information, samples and quotes. You can also email us at [info@global-organics.com](mailto:info@global-organics.com) for more information.

Stay well and we hope to see you in person again as soon as possible!

Your friends at Global Organics

## CERTIFIED ORGANIC INGREDIENTS

Organic Rice Syrup

Organic, clarified and brown, rice syrups are popular clean-label ingredients. In addition to adding sweetness, rice syrup acts as a binder, stabilizer, flavor carrier, humectant and preservative. We offer both 40 DE and 60 DE with other DE options available. Brown rice syrup lends a caramel flavor note and color to bars and cereals.

Organic Coconut Cream 24%

Our organic coconut cream supplier implemented a state-of-the-art blending and aseptic processing system capable of making a shelf-stable coconut cream with enhanced flavor retention and appearance (better color, less water/coconut meat separation). Coconut cream can be made with or without emulsifiers.

## DELICIOUS AND ORGANIC!

Organic Caramel

We offer a range of organic caramel liquids, pastes, powders, flakes and inclusions that are customized to work in specific applications including ice cream bases, dairy milks, syrups, plant-based milks, toppings, colors, dried soups, chocolate, glazes and bakery.

Organic Brown Sugar

Available now in Dark, Light and Very Light. Fair trade option available. Great for adding flavor and moisture to organic baked goods. Suitable for vegan and gluten-free products.
